Dear Mr. Breed

We, the members of the Van Alstyne Fire Department would like to thank you and your company for the outstanding training that was conducted at the Van Alstyne Fire Department on Saturday November 1, 2003. You and your employees were very knowledgeable and friendly. We look forward to utilizing your company should the need arise in our service area. Furthermore we greatly appreciate the response and professionalism by you and your crew at the scene of the motor vehicle accident involving our fire engine. The accident is still under investigation and we are still without our first out engine. All personnel that were transported were released from the hospital that day. The worst injury sustained was fractured ribs. Also remember that you and your crew are invited to our buffalo steak dinner on November 22 at 1700 hrs.

Sincerely,

Brett A. Bearden
Paramedic/Firefighter
